xSTUDENT — Team Issue & PR Assignment Guide

Team Lead: Prince Kumar | **Total GitHub Issues:** 40 | **Repo:** github.com/princecherry9905/try

Member	Role & Specialization	Assigned Issues (PRs)	Target Merged PRs
Prince Kumar (Lead)	Architecture, Repo Setup, Dashboard, Code Reviews, Deployment	**8 Issues:** #1, #5, #21, #22, #32, #33, #36, #38	**2+ Merged PRs**
Member 2	React Layout, Bootstrap UI, Student CRUD Forms, Tables, Routing	**14 Issues:** #2, #10, #15-#20, #24, #29-#31, #33, #35	**2+ Merged PRs**
Member 3	Mongoose Schemas, Student CRUD REST APIs, CORS, Backend Hosting	**11 Issues:** #3, #4, #11-#14, #25, #27, #34, #37, #39	**2+ Merged PRs**
Member 4	JWT Auth, User Register/Login, Role Authorization, Fetch Service	**7 Issues:** #6-#9, #23, #26, #28, #40	**2+ Merged PRs**

1. Frontend Issues & PR Mapping (19 Issues)

Issue / PR #	Title & Acceptance Scope	Assignee (Owner)	Priority	GitHub Link
Issue #2 PR #2	**#2: Create React + Vite frontend** Init React 19 + Vite, scripts, clean starter files	**Member 2 (Frontend)**	High	Open #2
Issue #10 PR #10	**#10: Build React login/register/logout flows** Controlled forms, token storage, logout, auth guards	**Member 2 / Member 4**	High	Open #10
Issue #15 PR #15	**#15: Build shared application layout** Sidebar, top navbar, responsive mobile offcanvas/collapse	**Member 2 (Frontend)**	Medium	Open #15
Issue #16 PR #16	**#16: Build student list and fetch integration** Student table, native fetch, loading spinner, empty state	**Member 2 (Frontend)**	High	Open #16
Issue #17 PR #17	**#17: Build controlled Add Student form** Controlled form inputs, validation, POST student API	**Member 2 (Frontend)**	High	Open #17
Issue #18 PR #18	**#18: Build Edit Student and Details pages** Prefilled edit form, PUT save, single student details view	**Member 2 (Frontend)**	High	Open #18
Issue #19 PR #19	**#19: Add search and filters** Search by name/rollNo/email, course & semester filters	**Member 2 (Frontend)**	Medium	Open #19
Issue #20 PR #20	**#20: Configure React Router and protected routes** Protected routes, auth redirects, 404 page	**Member 2 (Frontend)**	High	Open #20
Issue #21 PR #21	**#21: Build dashboard summary cards** Bootstrap KPI stat cards (Total, Active, Courses, Users)	**Team Lead / Member 2**	Medium	Open #21
Issue #22 PR #22	**#22: Connect dashboard to real data** Wire live API statistics and recent students table	**Team Lead / Member 2**	Medium	Open #22
Issue #23 PR #23	**#23: Build profile/current-user page** Display current user details, role badge, account info	**Member 4 / Member 2**	Medium	Open #23
Issue #24 PR #24	**#24: Standardize validation and feedback** Bootstrap alerts, form validation styling, toast notifications	**Member 2 (Frontend)**	Medium	Open #24
Issue #29 PR #29	**#29: Improve responsive mobile/tablet layout** Mobile responsive tables, cards, sidebar toggle	**Member 2 (Frontend)**	Medium	Open #29
Issue #30 PR #30	**#30: Improve accessibility and keyboard support** ARIA labels, keyboard focus states, accessible dialogs	**Member 2 (Frontend)**	Medium	Open #30
Issue #31 PR #31	**#31: Add delete confirmation and notifications** Bootstrap 5 Modal for student deletion with undo warning	**Member 2 (Frontend)**	Medium	Open #31
Issue #33 PR #33	**#33: Final UI and usability review** Spacing, empty states, hover micro-animations, polish	**Team Lead / Member 2**	Medium	Open #33
Issue #35 PR #35	**#35: Verify production frontend build** npm run build check, zero lint/compilation errors	**Member 2 (Frontend)**	High	Open #35
Issue #38 PR #38	**#38: Deploy frontend and final end-to-end check** Deploy on Vercel, configure VITE_API_URL, SPA routing	**Team Lead / Member 2**	High	Open #38

Issue #40 PR #40	**#40: Create reusable native-fetch API helper** Centralize API_BASE, Bearer token, JSON parse, error throw	**Member 4 (Auth/API)**	**High**	**Open #40**

2. Backend Issues & PR Mapping (17 Issues)

Issue / PR #	Title & Acceptance Scope	Assignee (Owner)	Priority	GitHub Link
Issue #3 PR #3	**#3: Create Express backend** Initialize Express server, routes, morgan, helmet, CORS	**Member 3 (Backend)**	**High**	**Open #3**
Issue #4 PR #4	**#4: Configure MongoDB Atlas and Mongoose** db.js connection module driven by MONGO_URI, error handling	**Member 3 (Backend)**	**High**	**Open #4**
Issue #6 PR #6	**#6: Create User model and registration API** User schema, email uniqueness, role defaults to User	**Member 4 (Auth)**	**High**	**Open #6**
Issue #7 PR #7	**#7: Implement password hashing and login API** bcryptjs hashing, JWT token signing, invalid credentials 401	**Member 4 (Auth)**	**High**	**Open #7**
Issue #8 PR #8	**#8: Implement JWT authentication middleware** Bearer token verification, attach req.user, reject expired	**Member 4 (Auth)**	**High**	**Open #8**
Issue #9 PR #9	**#9: Implement Admin authorization middleware** requireAdmin middleware, 403 Forbidden for non-admin	**Member 4 (Auth)**	**High**	**Open #9**
Issue #11 PR #11	**#11: Create Student Mongoose model** Student schema, rollNo/email uniqueness, validations	**Member 3 (Backend)**	**High**	**Open #11**
Issue #12 PR #12	**#12: Implement Admin-only student creation** POST /api/students with duplicate checks & validation	**Member 3 (Backend)**	**High**	**Open #12**
Issue #13 PR #13	**#13: Implement Admin-only student update** PUT /api/students/:id with validation, Admin-only	**Member 3 (Backend)**	**High**	**Open #13**
Issue #14 PR #14	**#14: Implement Admin-only student deletion** DELETE /api/students/:id, Admin-only, 404 for missing	**Member 3 (Backend)**	**High**	**Open #14**
Issue #25 PR #25	**#25: Configure CORS for local and deployed origins** CORS whitelist for localhost:5173 & production frontend	**Member 3 (Backend)**	**High**	**Open #25**
Issue #26 PR #26	**#26: Verify frontend and backend role enforcement** Test 403 status codes on mutation endpoints for User role	**Member 4 (Auth)**	**High**	**Open #26**
Issue #27 PR #27	**#27: Add centralized errors and health endpoint** GET /api/health, centralized errorHandler & 404 middleware	**Member 3 (Backend)**	**High**	**Open #27**
Issue #28 PR #28	**#28: Test edge cases and authorization failures** Malformed IDs, duplicate keys, token expiry testing	**Member 4 (Auth)**	**High**	**Open #28**
Issue #34 PR #34	**#34: Test authentication and CRUD APIs** Repeatable API test suite for auth & student endpoints	**Member 3 / Member 4**	**High**	**Open #34**
Issue #37 PR #37	**#37: Deploy backend and connect Atlas** Deploy backend on Render/Railway, set env vars, test health	**Member 3 (Backend)**	**High**	**Open #37**
Issue #39 PR #39	**#39: Implement GET student list and detail APIs** GET /api/students & GET /api/students/:id with filters & stats	**Member 3 (Backend)**	**High**	**Open #39**

3. Architecture, Setup & Release Issues (4 Issues)

Issue / PR #	Title & Acceptance Scope	Assignee (Owner)	Priority	GitHub Link
Issue #1 PR #1	**#1: Initialize GitHub repository and main branch** Repo setup, main branch protection, collaboration rules	**Team Lead (Prince Kumar)**	**High**	**Open #1**
Issue #5 PR #5	**#5: Add environment examples and gitignore** Root/frontend/backend .gitignore and .env.example templates	**Team Lead (Prince Kumar)**	**High**	**Open #5**
Issue #32 PR #32	**#32: Remove debug code and console warnings** Code review, eliminate logs, resolve warnings	**Team Lead (Prince Kumar)**	**Medium**	**Open #32**
Issue #36 PR #36	**#36: Complete root README and screenshots** Comprehensive README with team table, endpoints, screenshots	**Team Lead (Prince Kumar)**	**High**	**Open #36**

4. Quick Branch & PR Instructions for Teammates

1. **Feature Branch:** git checkout -b feature/issue-<number>-<task-name>
2. **Commit Message:** git commit -m "feat: implement <feature> (closes #<number>)"
3. **Push & PR:** git push -u origin feature/issue-<number>-... → Open PR to main
4. **Review & Approval:** Prince Kumar (Lead) reviews & merges after testing passes.
5. **Rule:** Minimum **2 merged PRs** per teammate required by assignment rubrics.
